The State Department for Shipping and Maritime (SDSM) is a new Department in the Ministry of Transport, Infrastructure, Public works, Housing and Urban Development with an overall goal to promote maritime and shipping industry.

The immediate challenge for the new department was working space for its staff. To address the challenge, SDSM acquired space at NSSF ANNEX on 8th floor and has so far completed office partitioning works.

A site survey by the Regional Works Office established works involving installation of structured cabling network for data (computer network) and voice (IP Based Telephone network) together with network switches, IP-PBX, IP Telephone and other associated active and passive devices.

To address this challenge, the State Department of Shipping and Maritime intends to carry out cabling and associated works in the offices.
